Change Your Perspective

What would it look like?

- A cat's paws from the floor's perspective.
- A desk drawer from the inside, looking out.
- A swing set from a bird's perspective.
- A root system underground, as a flower grows.
- A tall tree from a fish's perspective.
- A patch of earth from an ant's perspective.
- My pencil from the paper's perspective.
- An eraser from a pencil mark's perspective.
- A forest from an eagle's perspective, as it flies overhead.
- If you were on the moon, looking back at Earth.

What other perspective ideas can you come up with???
